Freshman <input type="checkbox"/>	Goalie <input type="checkbox"/>	

The above named player has been cut from our organization.

Comments: _____

General Manager's Signature

Eligible JV & Varsity players with this **Official Cut Sheet**, who have tried out for, and been cut from, their own district's team, may elect to have their names entered into a player pool if they are ineligible to play on another team in their own district. JV & Varsity Teams unable to field full teams in their district shall have the right to "Draft" from this pool in reverse order of point totals of the previous season. **Draft will be held in early-September.** Player's names shall be placed on a Draft List and chosen by teams in rotation, one pick per round until all rosters are filled or pool runs out. No team may participate in the Draft who has cut players. No organization having more than one team on each level may draw from the pool until all organizations having only one team have filled their rosters. Each season, all players must return to their "home team" for a tryout. If that player is cut, player will return to team that drafted him/her the previous year. If that team does not take that player, the player will be drafted through the normal draft procedures. No team may cut an in-district player to take a returning draft player. **All players in the pool must post a \$300 non-refundable bond. Checks, money orders (payable to "SCHSHL"), cash and credit cards accepted up to 2 weeks before the Draft. Certified checks, money orders (payable to "SCHSHL"), cash and credit cards accepted thereafter.** Organizations will get a \$300 credit for each player drafted.
